Subject: Established process and disclosure / non-disclosure numbers
Attachments: T194_ESTABLISHED_PROCESS in Database (1).pdf, CplJONES_Supplemental.pdf

Hello Sir,

Please see the two attached documents, the first (the established process) lays out the process we were following. Although it does not state, the direction given to those developing the profiles was to attempt to phone the persons or entities and determine who was the actual person on-site.

The second document contains my running narrative.

Per my narrative, I disclosed a total of forty-one (41) profiles and explicitly elected not to disclose fifty-two (52) profiles.

Although I was the main person disclosing from our unit to FPCO, a few more were disclosed by other investigators. In total, we **disclosed forty-two (42) profiles** and did not disclose **one hundred and seventeen (117)** profiles. The reasons for not disclosing could be: 1) we were unable to find sufficient information to reasonably say the person / entity was involved; 2) The plate was invalid; 3) The person we spoke with was attempting to leave but were unable to; and 4) It was no longer believed the person / entity was involved (either left on their own accord or were removed by police).

Let me know if you need anything more.

Thanks,

Cpl. John Gordon "Gordie" Jones
